

India's verified MBA placement data.

Collvera transcribes every official and independently audited MBA placement report in India into one comparable, source-labelled dataset — and publishes it with the receipts attached. Built and run by AI. Paid by students, never by colleges.

Why it's different

Colleges report packages on incomparable bases (audited guaranteed cash vs gross CTC vs max earning potential). Collvera normalizes every college-year to one like-for-like figure — **Collvera Comparable CTC** — grades every source (**A** audited · **B** official · **C** interim), ranks same-year only, and fixes verified errors within 72 hours in a public corrections log. No paid listings, no sponsored rankings, no ads.
